FOR SALE—REAL ESTATE.

Charles M. Heberton, the great R. R. magnate and banker, who has traveled the United States from east to California and from the north to the Guif, said while in Topeka, that the only place of much size where they have had plenty of rain is in the Divide in the rain beit of Colorado, where rain, sunshine and good crops never fail. Just think of it! 44 bushels of wheat per acre, oats 70, barley 56, potatoes 150 to 200, alfalfa 3 to 5 tons, alfalfa seed il bushels per acre, all without irrigation. The soil is as good as the best Kaw bottom. The pure, soft water and the breaze from the anow on Pike's Feak makes it a delightful climate, in fact it is the healthiest place on earth. No hot nights, cyclones, hot winds, chinch bugs. No crabb grass to bother when digning potatoes. If you are bothered with catarrh, lung trouble or maisria, so to the Divide, where health, wealth and happiness abounds. The exceedingly cold soft sheet water is found from 10 to 40 feet. It is one of the best places to raise colts and mules in the world, as they live fat on pasture the year around. Think of it, only costing \$100 per annum to keep a horse or mule. In fact, it is the best place on earth to makes morney and live healthy and happy. This remarkable and fertife soil for \$20.00 per acre.
